

Luis Alberto Gómez Ruiz

Senior Software Development Engineer | AI & Backend

Cali, Colombia | (+57) 301-407-7387 | luchogr23@gmail.com | linkedin.com/in/luisgomezring | github.com/luisgr97

PROFESSIONAL SUMMARY

Senior software development engineer with 5+ years of experience designing, developing, and integrating full-stack software and microservices architectures. Strong command of Java/Spring Boot and Python on the backend, and JavaScript/TypeScript on the frontend with Angular, React, Node.js, and Express, building SPA interfaces and responsive web applications. Proven experience with web communication standards (REST, SOAP, MQTT, RPC), SQL and NoSQL databases, containers (Docker, Kubernetes), and cloud platforms (AWS, GCP, Azure). Specialized in applied artificial intelligence —Deep Learning, image processing, LLMs, and AI agents— as well as information security (OWASP, ASVS) and ethical hacking. Experienced with multi-country regulatory e-invoicing platforms across Latin America and the United States.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, C++, Go

Backend: Spring, Spring Boot, Spring MVC, Apache Camel, Node.js, Express, Django REST

Frontend: Angular, React.js, PrimeNG, JavaScript/TypeScript, HTML5, CSS3, Bootstrap, SPA, responsive design

Architectures: Microservices, Serverless, SOA, Micro-Kernel, Monolithic

Protocols / Messaging: REST, SOAP, MQTT, RPC, Redis, ActiveMQ

Cloud & DevOps: AWS, Azure, GCP, Terraform, CloudFormation, Jenkins, Azure DevOps, Docker, Kubernetes

Databases: PostgreSQL, MongoDB, SQL Server, DynamoDB, DB2, MySQL, H2

Artificial Intelligence: Deep Learning, Image processing, LLMs, AI Agents, Machine Learning, NLP, scikit-learn, pandas, numpy

AI / Dev Tooling: Claude Code, OpenCode, Kiro, Ollama, LM Studio, OpenAPI/OpenSpec, Spec Kit, Spec-Driven Development

Security: OWASP Top 10, ASVS, Ethical hacking, Application security

PROFESSIONAL EXPERIENCE

Senior Software Development Engineer

Carvajal Tecnología y Servicios — Cali, Colombia

2025 – Present

- Develop and maintain Kumbre, an electronic invoice reception platform operating across Colombia, Mexico, Peru, El Salvador, and the United States.
- Design and implement backend components with Java/Spring Boot and Node.js services, ensuring multi-country regulatory compliance.
- Build frontend interfaces with Angular and React for invoice reception and management modules.
- Integrate AI capabilities (LLMs, AI agents, and image processing) and adopt Spec-Driven Development workflows.
- Contribute to microservices architecture design and ensure quality, security, and continuous integration.

Stack: Java, Spring Boot, Node.js, Express, Angular, React, REST, Microservices, AWS, Docker, Kubernetes, PostgreSQL, MongoDB, LLMs, AI Agents, Claude Code, OpenCode, Spec Kit

Systems Engineer — Senior Developer / Tech Lead

Grupo Cinte — Bogotá, Colombia

Feb 2024 – Jan 2025

- Led and mentored the development team during sprint planning and execution.
- Delivered user stories meeting acceptance criteria, testing policies, and continuous integration standards.
- Designed and implemented Continuous Deployment (CD) environments with Terraform and AWS.
- Ensured applications met security and functional requirements, resolving related incidents.

- Contributed to the proposal and design of software component architectures.

Stack: Java, Python, Spring Boot, REST, SOAP, Microservices, Serverless, AWS, Terraform, CloudFormation, Jenkins, Docker, DB2, DynamoDB

Systems Engineer — Semi-Senior Developer

Carvajal Tecnología y Servicios — Cali, Colombia

Sep 2022 – Feb 2024

- Developed microservices-based software in multiple languages under the object-oriented paradigm.
- Built user interfaces with Angular and PrimeNG (reactive forms, calendar components, and history tables).
- Handled and resolved level-3 incidents, providing operational support.
- Built integrations using REST, MQTT, and SOAP across synchronous and asynchronous models.
- Contributed to the proposal and design of software component architectures.

Stack: Java, JavaScript, TypeScript, Python, Spring Boot, Apache Camel, Node.js, Angular, REST, MQTT, SOAP, Redis, ActiveMQ, AWS, Azure, Docker, Kubernetes, MongoDB, SQL Server, PostgreSQL, Grafana

Systems Engineer — Semi-Senior Developer

AOS Internacional — Cali, Colombia

Jun 2022 – Sep 2022

- Developed Serverless-architecture software for Infrastructure-as-Code (IaC) environments.
- Delivered user stories complying with testing and continuous integration policies.

Stack: Python, Serverless Framework, REST, AWS, Azure, Azure DevOps, Docker, DynamoDB

Systems Engineer — Junior Developer

3LOX LLC — Miami, United States

Nov 2020 – Jun 2022

- Led the company's internal development team.
- Developed software with SOA and Micro-Kernel architectures in Java (JSP, JPA).
- Built web interfaces with ZK Framework and JavaScript for the company's internal applications.
- Designed and implemented web services aligned with business needs.
- Built integrations with Clientify, Metabase, and Stripe.
- Supported the design and implementation of a Machine Learning model to predict and categorize entrepreneurial potential.
- Built dashboards and queries for data analysis.

Stack: Java, JavaScript, Python, JSP, JPA, ZK Framework, Django REST, Node.js, REST, AWS, DynamoDB, PostgreSQL, MySQL, SQL Server, MongoDB, scikit-learn, pandas, numpy, Grafana, Metabase

Systems Engineer — Junior Developer

Innovar Web — Cali, Colombia

Jun 2020 – Oct 2020

- Developed Single Page Applications (SPA) with React.js and monolithic architecture in Python.
- Built responsive web interfaces with HTML, CSS, Bootstrap, and JavaScript.
- Developed mobile applications with Java and Android Studio.

Stack: JavaScript, Python, Node.js, React.js, Django REST, REST, AWS, PostgreSQL, MongoDB

FEATURED CERTIFICATIONS

IBM AI Developer — Professional Certificate (10 courses)

Apr 2026

IBM · Coursera — Building web applications and generative-AI solutions (HTML, CSS, JavaScript, Python, Flask, prompt engineering, chatbots). Verify: coursera.org/verify/professional-cert/D9PA14OQS49W

Others: Node.js: From Zero to Expert (Udemy) · Introduction to Serverless, Lambdas & API Gateway with AWS (Udemy) · Spring Framework (Udemy).

EDUCATION

Specialization in Artificial Intelligence

Aug 2026 (in progress)

Uniminuto — Cali, Colombia

Bachelor's in Systems Engineering

Jun 2023

Universidad del Valle — Cali, Colombia

Electrician & Photovoltaic Systems Maintenance Technician

Instituto Maya — Cali, Colombia

Dec 2025

Systems Technician

SENA — Cali, Colombia

Nov 2014
